International Family Festival Will Mark United Nations Week

United Nations Week beginning today and continuing through next Saturday will be observed by a International Festival at the Aviation High school, Aviation and Manhattan Beach Blvd., on Saturday Oct. 25 from 1 p.m. until 10 p.m. The affair is being staged by the International Family Festival Committee of the South Bay, sponsored by the South Bay Civic Symphony Orchestra, Inc.

The goal in staging the event according to the committee is a way of demonstrating this community's interest and regard for the many national and religious customs among us.

There will be exhibits from various countries including a World Religious booth and a United Nations booth.

The entertainment will include folk dances and songs, religious dances, group singing, children's singing and dancing, Negro spirituals, Scottish pipes, featured solos and a program by the South

Bay Civic Symphony Orchestra in the afternoon and evening. There will also be Spanish dancing, Indian singers, Indian dancing, and English ballads.

Highlight of the displays will be the exhibit from West Africa belonging to Mr. and Mrs. John Strom, 1750 Martina Ave., Torrance. Mr. Strom is principal of the Perry School, having come to Torrance in 1952. His wife is a teacher at the Adams School in Redondo.

For a year and a half before coming here the Strooms were located in Monrovia, Liberia, where Mr. Strom was in charge of the College of West Africa, founded in 1839.

During their residence in Africa the Strooms collected a variety of interesting African lore which they will display at next Saturday's festival.

A magnificent motif on the walls of the auditorium will artistically display the essence of the International Family Festival which is open to the public.

An international buffet has been planned. A nominal fee will be charged for the buffet.

I told her I was going to write to you and she said "go ahead. Annie will be on my side." Am I wrong? Is romance just for young people? How about it?—H. H. SILVER

Dear H. H. Silver: Your wife is mistaken. You're with me. She's one of us. There's something quite wonderful about a fire in the furnace when there's snow on the roof. Age has nothing to do with romance. Why blow the whistle on Cupid just because the bones get a little cracky? It makes no sense to put a date limit on something so precious as love.

So long as physical health can keep pace with emotional drive, there's nothing foolish about being real sweethearts forever and ever.

Dear Ann Landers: What do you think of a father who has not called his own daughter by her given name since she was born? She's now 7 years of age.

The old grandfather wanted to name her after his mother. I never cared for his mother or her name, so I named her after MY mother. He's been mad ever since.

It wouldn't be so bad if he called her "honey" or "darling," but he doesn't call her

that. I'm youth chairman of the Junior Club.
